Grad. May 2019
Cum. CGPA: 7.2

SKILLS

Languages:

Java, Java-Script, Html, Css, BootStrap

Databases:

SQL, Node.js

Tools:

Power Bi, GitHub, VS Code, Linux, EmailJs

COURSEWORK

- Data Structures
- Algorithms
- Database Management
- Operating Systems
- Cloud Computing
- Computer Networks
- Software Engineering

EXPERIENCE

Academor

Intern

Nov 2023 - Dec 2023

Remote

- Developed web pages using HTML, CSS, JavaScript, and Bootstrap, collaborating on both front-end and back-end projects.
- I also integrated APIs to enhance website functionality.

🐙 vivekvardhan/Web-Development

PROJECTS

Web Application

Real-Time Weather Forecast Website

- Developed a website that uses a weather API to fetch and display real-time weather based on user input.
- Implemented interactive features to enhance usability.

🐙 github.com/Weather-Report

Personalized Portfolio

Live Website : <https://vivekvardhanportfolio.netlify.app>

- My Portfolio is a React.js application that serves as an online Portfolio to showcase my work, skills, and achievements.
- It provides an overview of my background, displays my projects, and offers a way to contact me.

🐙 github.com/Portfolio

Software-Microsoft Power Bi

Power Bi

- Developed interactive Power BI dashboards to visualize Adventure Works data, creating detailed and actionable insights with advanced data visualization techniques.

🐙 github.com/Adventure-works-Power-Bi

ACHIEVEMENTS

Microsoft Azure Fundamentals

- Microsoft Certified: Azure Fundamentals (AZ-900)

Udemy Power BI

- Microsoft Power BI Desktop for Business Intelligence
